Professional Summary

Analytical and detail-oriented Computer Science Engineering student with strong foundations in **data analytics, machine learning, and cybersecurity**. Experienced in building AI-driven solutions and predictive models through academic projects and internships. Recently completed the **Tata GenAI Data Analytics Job Simulation (Forage)**, gaining hands-on exposure to **data wrangling, visualization, and business insights generation**. Passionate about leveraging data to solve real-world problems and contribute to business excellence.

Key Skills

- **Programming & Analytics:** Python, Java, C, JavaScript, SQL (PostgreSQL), OpenCV
 - **Data Science & ML:** Predictive Modeling, Machine Learning, Deep Learning, Data Structures & Algorithms
 - **Tools & Frameworks:** TensorFlow, PyTorch, n8n Automation, Tailwind CSS
 - **Soft Skills:** Problem-Solving, Adaptability, Multitasking, Calm under Pressure
-

Education

B.Tech, Computer Science & Engineering

CVR College of Engineering – Mangalpally Ibrahimpatnam | Expected June 2027

CGPA: 9.6

MPC (Maths, Physics, Chemistry)

Sri Gayatri Junior College – RK Puram | May 2023

Score: 989/1000 | EAMCET Rank: 8634

High School

Kakatiya Techno School | June 2021

CGPA: 10 | Sports Captain (2020)

Certifications

- **Tata GenAI Data Analytics Job Simulation – Forage (2026)**
 - **PW Skills & Udemy – Programming & Data Science Courses**
 - **HackerRank – Gold Badge in Data Structures & Algorithms**
 - **200+ problems solved on LeetCode, 100+ on GeeksforGeeks**
-

Projects

- **Smart Attendance System Using Face Recognition** – Automated attendance tracking using Python & OpenCV.
- **Semantic Resume Job Matching System** – Implemented CBOW & Cosine Similarity for candidate-job fit analysis.
- **Camouflage Detection System** – Image processing solution for detecting hidden patterns in visuals.
- **Brain Tumor Prediction** – ML-based classification model for medical imaging datasets.

- *Text-Based Threat Detection* – NLP-driven system for identifying potential threats in text data.
 - *Social Media Analytics Tool* – Python-based project analyzing engagement and sentiment.
-

Achievements & Leadership

AIML DS LEAD AT GDG CVR

- *Sports Captain (2020)* – Kakatiya Techno School
 - *Consistently ranked among top performers in academics and coding platforms*
 - *Demonstrated leadership and teamwork in collaborative tech projects*
-
